January Vol. 34 Issue 1

“BPAT Software Issues as Reported by Backflow Prevention Assembly Testers”

For many years there have been backflow prevention assembly tracking software programs utilized by enforcement agencies to assist with their Cross Connection Control Program. Some are user friendly; while others are nightmares for the tester and do not really assist with proper enforcement measures.

The following are just a few comments received from Backflow Prevention Assembly Testers (BPATs) about software program issues. Some comments relate back to enforcement policies established by the local water purveyor and/or plumbing inspection department.

Quotes from BPATs:

- “Some programs won’t give you the building information until after you test assembly – they issue a reference #”
Note: All software should allow you to see the entire record before any entry of new information.
- “Program won’t let you change the backflow information and wants you to put replace – even though we did not replace it. Prior company did to turn in the information!”
Note: Was the original information incorrect or has the assembly been changed at some point and the software entry not updated?
- “Program adds old backflow with new backflow – so both are due – Customer keeps getting letters for past due backflow preventers that are not there”
Note: Software must delete testing requirement of removed assembly.
- “Too many different forms for each jurisdiction – Houston area has several MUD’s and different programs are requiring different information – Hard to keep up and not uniform requirements.”
Note: A community MUST have common software in all MUD’s for a successful backflow program.
- “When BFPA missing – the tester is expected to find it and city (software company) doesn’t believe us that it is not there.”
Note: Tester must notify enforcement so they can investigate and correct.

Cont. Page 8

Gauge testing for members starts at 5:00 PM at SAWS

January – Meeting Details

Meetings of the San Antonio Chapter ABPA are held the second Thursday of every month except December. Dinner and refreshments are served at 6:00 p.m. sharp with the meeting starting at 6:15. The next meeting is:

Date: Thursday January 11, 2024

Time: 6:00 PM Pre-registration only required to receive a meal

Loc: SAWS Bldg. 2 Conference Room
2800 US Hwy 281 North.

Program: What You Need to Know to Make the Best Decision for Your Customer (the rest of the story) Joe Young

Meeting Sponsor: BAVCO

No alcoholic beverages allowed

Next Meeting: February 8, 2024

Big Thanks to

American Backflow Products for sponsoring the November meeting.

Jennifer Segler, American Backflow Products, National Sales Manager, for providing the training program.

American Backflow Products for donating several items for the raffle drawing.

January Agenda

- 5:00 p.m. General discussion and quorum confirmation
- 5:15 p.m. Call Meeting to order.
- 5:16 p.m. Secretary's Report. Read and approve the minutes of the previous meeting.
- 5:20 p.m. Treasurer's Report. Discussion and approval of the treasurer's report.
- 5:25 p.m. Supply Officer's Report
- 5:30 p.m. Vice President's, Directors', and any other reports for the good of the chapter. Comments, new business, any discussion.
- 5:40 p.m. Training Report. Training & Meal Sponsors
- 5:45 p.m. Webmaster Report
- 5:50 p.m. President's Report. New & old business
- 6:00 p.m. Meal is served.
- 6:15 p.m. General Membership Meeting & Training
 1. Report from the Directors Meeting. President
 2. City, regional, and national reports. James Cantrell and/or any City personnel present.
 3. Training program for the evening.
 4. Raffle prize drawing.

Ongoing Goals of ABPA-SA Chapter

1. Educational Outreach with public by presenting at PHCC meetings, engineering firms, schools, and neighborhood associations. Continuing goal.
2. Greater use of TCEQ website. Tracking of CEUs, Services available. Personal education.
3. Increase member awareness of importance of chapter meetings. Increase attendance and public awareness.
4. Increase website resource information. More detailed links to more information like TCEQ, COSA, and any place that would be helpful to our members

"Direct Talk" by the President

The January 11th meeting will be held in the SAWS conference room in the Tower II building located at 2800 U.S. Hwy. 281. **We will have a BOD meeting starting around 5:15 PM.** Gauge testing starts at 5:00 PM and is iffy after 5:30 PM. The meal will start at 6:00 PM and the meeting will start at 6:15 PM. You may attend the meeting **without** pre-registering, however, if you would like a meal, you will have to register via the email you will receive about 10 days before the meeting. Stay safe.

Trinidad Chairez

Here is a good website for emergency information: www.sanantonio.gov/emergency/

Chapter Chatter

with fewer friends after this list is published

Le Grande Raffle: The ABPA-SA has a monthly raffle but in November is Le Grande Raffle. Tickets from the January to October meetings are combined with the November tickets sold. Situation: The January to October tickets were stolen, along with other items, from a member's pickup. So, \$1,350 in \$2 tickets were sold at the November meeting. It was like "shooting tuna in a tub" for those attending. There were about 80 prizes worth about \$3,500. Special thanks to Jeff Meeks and Art Trejo for spending their own money on items they provided for the raffle along with the items ABPA-SA provides. Also to Fred and Troy Baird with Bac-Flo Unlimited and BAVCO, who always helps the chapter, and member Kevin Le Prete who is the Gift Card Guy.

SAWS Support: Incredible: We had 7 SAWS backflow employees at the November meeting. This included Dan Crowley, Director - Governmental Relations and Regional and Federal Affairs with San Antonio Water System. Don't think it was for our Pizza and salad meal. None were told about the raffle situation. Only two have BPAT licenses. Others work in the Backflow Section – home of their T&M reporting app. Thank you so much for your support.

Jeff Meeks Provided

Deer Feeder W/Cage - Robert Stricker – One more license to get. I "hunt" HEB – no license or weapon required.

Bug Zapper -- Troy Baird - BAC-FLO Unlimited is out in the country where it's BUGS Unlimited.

Bachman HO Train - Joe Fazekas – Joe's first choice for going back to his childhood.

Electric two car drag strip - Joe Young – Joe wasn't "Young" enough when slot cars were popular. Remember them?

Four Tackle Boxes - Ed Moore, Joe Fazekas, Frank Snyder, Javier Soliz – great for an ABPA-SA picnic. Or were they to feed the bears?

Ice Chest - Jeff Stricker- need for their fishing and shoot. They live off the Food Grid.

Two game dressing and skinning field Packs - Art Trejo & Frank Snyder – In case Fred's new electric filleting knife fails.

Small Fishing Pole - T D Fisher – for the small fish and crabs we catch at our Cast 'n Stay annual fishing excursion.

Screw Driver Set - Trenten Rathburn - Think his Dad won this but wanted Trenten to get it.

3 pc Gift Set - T D Fisher – Three pieces of what?

Case it Binder - T D Fisher – What will T D "case" and "bind?" Please bring to a monthly meeting.

4 Shooting Targets Trenten Rathburn and three for Joe Young. I can see one but three? Joe – put them close together for much better results.

Screw Driver Set – Winner too embarrassed to claim. Thought they went with vodka and orange juice.

Small Fishing Pole – Winner too embarrassed to claim. T D Fisher will need the company.

ABPA Provided

Plastic Fitting Saver Tool - Freddy Zavala – Have no idea what tool he will be saving.

Milwaukee 3 Pc Copper Cutter Set - Javier Soliz or Enrique Solis – Didn't get the first name for these plumber tools.

Knee Pads - Trenten Rathburn – His Dad, Bruce, was excited – no more of him getting down and up (worse than going down) for testing those double checks.

Academy Gift Card -Greg Shean – Going kitchen and condiment shopping. I hunt and fish Estate and Lake HEB.

Academy Gift Card - Robert Stricker – Get a small cooler for those squires you trap.

Two \$25 VISA Gift Cards - Greg Shean – Either that or a long 30 drive to Converse for a food gift certificate.

Adult Rain Poncho - Joe Young – Newly married. Now need one for his wife and eventually 4 for the kids.

Water Proof Blue Tooth Speaker - Dan Crowley – “Can you hear me now!!” when his staff doesn't seem to pay attention.

Cellular Trail Camera - Frank DeCock – also good for porch pirates.

Cordless Fillet Knife - Fred Baird – Now Fred can do all the fish filleting on our fall fishing trips. What a nice guy!!

Ironton 15 PC Drill Bit Set -Greg Shean – Is it called “re-gifting, repurposing, or looks good on tool rack?”

Ironton 2 PC Jumbo Step Drill Bit Set - Troy Baird – For the really big backflows that few have the courage to do. Now fix that 12” backflow in your office's front yard.

1/2” Copper Sizing Tool -Trenten Rathburn – He's going from being plumber, to backflow, to game warden.

Klutch 6 PC Impact Nutsetter Set -Trenten Rathburn – But can it crack nuts?

Metric Deep Socket Set - Ed Moore – But Ed's “deeply” in retirement.

Racket wrenches -T D Fisher – Goes with his other non-specific tools he won.

10'x10' Slant Leg Canopy -T D Fisher - Sounds like a canopy with only two good legs.

Chair - Ed Sova – The chair is not electric or rocker convertible.

Fishing Pole - Robert Stricker – Made it to “second base” with trapping and fishing winnings.

Jobsmart 10 Piece Pliers Set w/Case - Greg Shean – Will go with Greg's Ironton 15 PC Drill Bit Set winnings.

Ironton 117 PC Drill & Driver Bit Set – Anonymous winner – Let no winner go unpunished – got lost counting over 50.

Ironton 3 PC Tool Bag Set - Anonymous winner – Let no winner go unpunished – Did not have three tools to his name.

16.5” Channel Lock pliers - Anonymous winner – Let no winner go unpunished – The .5 inches confused him.

Wrench Set – Anonymous winner – Let no winner go unpunished – Did not need another wench.

ASC Deep Socket Set - Anonymous winner – Let no winner go unpunished. Not a “Deep Thinker.”

Filet Knife - Anonymous winner - Let no winner go unpunished? Was holding out for cordless one or one with a pouch.

Art Trejo Provided

Fire X Disc propane cooker - Roger Hernandez - Like I've seen in Mexico for street vendors doing tacos on an industrial scale. Just need a food truck.

Popup Canopy - Robert Stricker - To cover his deer feed and cage so he could advertise, “Eat in the shade and no tipping”.

Deer Feeder & Varmint Trap - Jeff Stricker - Really? After his Dad, Robert, chose a deer feeder with cage. Competition on who can trap the largest squirrel. Yummy...

Field Test Stand – Bob Clark – I think Bob normally stands to test RPZs.

Tent - Art Trejo – Really Art – you won what you donated?

Up to 2” Pipe Reamer - Fred Baird – Probably give it to Troy who is also a Master Plumber.

USC 10th Manual & Video - Ed Moore – Wanted to see if he was correctly testing backflow preventers after all those years.

BAVCO Provided

Male & Female Test Cock Plugs - Robert Stricker – Who is more deserving?

Test Gauge Hoses & Filters - Frank Snyder -

Traeger Grill – Art Trejo – Great trade for that Fire X Disc propane cooker he bought but didn't win.

BAC-FLO Unlimited Provided

BAC-FLO-5 Backflow Test Kit - Enrique Solis – The grand prize.

Kevin Le Prete Provided

12 food gift certificate cards - Apparently Kevin does not eat at home much.

Four Mr. Gattis Medium One Topping Pizza, One Papa Dante's Pizza, One Chili's, Two Marco's Pizza, Two Bay Seas, and Two Taqueria Casa Jalisco's.

MINUTES SAN ANTONIO CHAPTER-ABPA GENERAL MEMBERSHIP MEETING Thursday, November 10, 2023

Jeff Stricker, Vice-President, presided over the meeting in the absence of Trinidad, who had an emergency work call. The ABPA San Antonio Chapter meeting started at 5:32 PM in the Tower 2 Conference Room at SAWS HQ.

EXECUTIVE OFFICERS – PRESENT	EXECUTIVE OFFICERS – ABSENT
Jeff Stricker– Vice President	Trinidad Chairez – President
Greg Shean – Secretary	
Art Trejo – Treasurer	
Keith Waldrep – Past President	
OFFICERS SPECIAL TO THE CHAPTER – PRESENT	OFFICERS SPECIAL TO THE CHAPTER – ABSENT
Carl Michaud – Gauge Testing/ Certification	Supply Officer - Vacant
Bill Hamrick – Membership and Newsletter	Jim Cantrell – Liaison to SAWS
Matthew Wilgen – Webmaster	
Joe Young – Program Director	
Jeff Meeks – Sgt. At Arms	

DIRECTORS AT LARGE – PRESENT	DIRECTORS AT LARGE – ABSENT
Bruce Rathburn – 2 years	Jeff Hoffman – 2 years
Fred Baird – 1 year	
Robert Stricker – 2 years	
Bob Clark - 1 year	
GUESTS PRESENT: Jennifer R. Segler American Backflow, Tallahassee FL 32304	National Sales Rep

Agenda Item #1. President's Report: Jeff Stricker called the meeting to order and asked everyone to turn off their cell phone and no game playing. He then asked for a moment of silence. He said that Trinidad "was stuck on a job." Jeff introduced Jennifer Segler, American Backflow Products who sponsored the meeting and will provide the training. INFO.

Agenda Item #2. Secretary's Report: Minutes were in the newsletter. Joe Young made a motion to accept. Seconded and Passed. INFO.

Agenda Item #3. Treasurer's Report: No report. INFO.

Agenda Item #4. Supply Officer's Report: Vacant – need a volunteer. Troy Baird had it for over 25 years and had to resign when he became ABPA Vice President and future President. Not all Supply Officers have to advance to higher office. INFO

Agenda Item #5. Meeting Sponsor: American Backflow sponsored the meeting. INFO.

Agenda Item #6. Meal: American Backflow sponsored the meal of 9 pepperoni and 3 vegetarian pizzas. Bill had the pizza cut into 6 large pieces. A Caesar salad was also provided. COSTCO cookies, bought by Jeff Meeks, finished off the meal. Art Trejo sponsored the water and sodas for the meeting. INFO.

Agenda Item #7. Raffle: November is our annual raffle. Summary in The Chapter Chatter. INFO.

Agenda Item #8. Webmaster. Matt said he needs to update website. INFO.

Agenda Item #9. SAWS: Emilie Prado, SAWS Backflow Administrator, ask that testers not hold onto a T&M until the customer pays the tester, there is a 10-day window from test date to date of submission. January 1st, testers will not be allowed to submit test reports beyond the 10-day window. The testers do need to submit a failed report to local enforcement agency; Emilie said to submit the report as "under repair". Emilie said a "failed report is better than no report". This is to assist the customer and ensure that they do not fall into non-compliance and get issued fees from SAWS.

SAWS has two positions open for backflow inspectors. This would include on-the-job training and CEUs. Emilie said, "Call SAWS if you know someone is looking." Carmen will be taking over Emilie's admin position as Emilie will be doing more compliance work with face to face with customers to get their backflows into compliance. She added that, "Hopefully before the end of the year they will catch up with customer calls." INFO.

Agenda Item #10. San Antonio Irrigation Association (SAIA): Keith Waldrep is now president and Art Trejo is also their treasurer. They are looking at upgrading the annual, one day, San Antonio Irrigation and Landscape Expo (STILE) that is normally held in January or February. The national irrigation conference will be held the end of November in San Antonio. INFO.

Agenda Item #11. ABPA National: National has started the request for presentations process. The next annual conference will be in Charlotte, NC from April 22-24th, 2024. INFO.

Agenda Item #12. SAWS Spring Bloom: SAWS sponsors this annual event in the plaza in front of SAWS HQ. SAWS provides free booth space for the ABPA-SA chapter and SAIA. This is a very well received and crowded event with plant aficionados attending for this free event at SAWS. SAWS and horticulture clubs bring plants to freely give away or at bargain prices. They also answer questions and provide advice. The hose bid vacuum breaker is explained and many are given away. SAIA handles the irrigation questions at their booth. Volunteers are needed for this 4-hour Spring Bloom event. INFO.

Agenda Item #13. City of San Antonio (COSA) Plumbing Inspection: No report. INFO.

Agenda Item #14. Membership: Bill said we gained a few members with a couple more wanting to join. One new member was Bruce's son, Trenten Rathburn. Bill said one new member wanted his gauge tested, had joined National APBA but did not join our chapter. The member said he wanted to join but there was a problem with the National website that did not allow it. Another member confirmed that. Bruce will get with Patty at National on it. INFO.

Agenda Item #15. Gauge Testing: Carl said gauge testing was "okay." He reminded everyone that all (non-potable) gauges must have -NP on the end of the Model Number to become the correct new Model Number on ALL documentation. Testing starts at 5:00 PM and membership is checked. Extra gauges can be tested for \$45 each, paid to the ABPA-SA treasurer. INFO.

Agenda Item #16. Attendance Award. There were 7 members with perfect attendance. Kevin LePrete won the \$200 drawing. The \$100 award for missing only one meeting included the "losers" from the perfect attendance drawing. The winner was Freddy Zavala with the number 9. Greg complained that his 6 from the previous drawing really was a 9. He got his usual boos. Tough luck Greg. There was no Nightmare of the Year Award submissions. INFO.

Agenda Item #17. Training: Jennifer Segler organized the members into 6 teams. She described this as not your typical Jeopardy game. Jennifer reviewed game rules. There will be five categories with point amounts of 100, 200, 300, 400, and 500 under each category. There were two Daily Doubles and points are not lost for wrong answers. Points are given to each team with a correct answer. Jennifer thought of a number between 1 and 20 to start the game. The Team with the closest guess would “control the board.” The five categories were True/False, Testing, Let’s Talk Assemblies, Trouble Shooting, and Trivia Multiple Choice. Each team was to write their answer on their white board and raise their hand. A five second time limit was given. First hand up with the correct answer was awarded the points, and “control the board.” Other teams with the correct answer were also awarded the points. The high point questions went first – a challenge. Again, Jeff Sticker and Joe Young, the BAVCO rep, were the All Star. Jeff’s dad, Robert Stricker, the former City of San Antonio Plumbing Inspector was also on that team. Final results: were 7100 (Jeff and Joe), 4100, 5000, 4900, 4800, 3200 (Fred and Troy Baird thought it would be unfair to participate after they jointed this team). Jennifer said next year she’ll split up Jeff, Joe, and Robert. INFO.

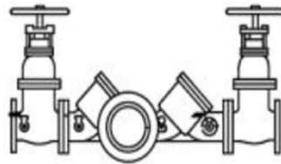

Adjournment. Motion to adjourn the meeting at 7:15 PM for the Annual Grand Raffle.

Greg Shean
Secretary

Continued from page 1

- “Some software programs have insisted on a reading on #2 check for R/P – when There is no reading on #2 check – know TCEQ has corrected software – however still having some requesting it.”
Note: TCEQ requires USC testing procedures and #2 check pressure is NOT obtainable, only closed tight or leaking information is obtainable.
- “Cannot look up number of assemblies – model #'s and serial #'s by address – You have to have at least one serial # of an assembly to look up information for a particular property.”
Note: All software must allow lookup by address.
- “Need One software system State wide.”
Note: This becomes a sticky competitive situation, however, TCEQ could provide a guidance document with specific requirements that MUST be adhered to by any software provider to be approved in Texas.
- “Comments on electronic T&M report submitted are not being reviewed if assembly passing when submitted for possible water purveyor follow-up.”
Note: Software companies could include a check-box if comments are included to flag the T&M for review.
- “Electronic reporting often has incorrect backflow assembly information and cannot be edited by backflow tester.”
Note: All software MUST be able to accept corrections in case of typos etc.

- **“Too many issues/hiccups!”**
Note: All software must meet a specific standard of TCEQ.
- **“I believe a standardized form would benefit enforcement and testers – also help with software issues.”**
Note: TCEQ is reviewing the current T&M which will have ramifications for falsifying a T&M report, whether submitted by paper or software.

Bottom-line: Some BPAT software should be reviewed by the local enforcement agencies to assure it is tester – customer and enforcement friendly. Software inadequacies create adverse effects for the entire CCC Program.

The quotes above were compiled from comments made by students attending the BAC-FLO Unlimited classes throughout the year.

Fred Baird – BAC-FLO Unlimited, Inc.

NEED TO KNOW INFORMATION ABOUT YOUR MEMBERSHIP

Membership in the ABPA-SA Chapter has many benefits available to those members who participate. The most valuable benefit is the “Free Hands-on 8 hour class” donated annually by BAC-FLO Unlimited, Inc. to each member who attends a minimum of five (5) meetings per year. Another benefit is earning the TCEQ required CEUs for renewing your BPAT License, in addition to certification of your potable backflow test gauge and your non-potable gauge, if you have one, each year. Members will also receive a meal at each meeting. This is one of the best deals available today for only \$125 per year, \$65 for National ABPA and \$60 for our ABPA-SA Chapter.

To join the American Backflow Prevention Association, simply fill out the membership application form and mail it with your check to the address listed below, or if paying by credit card you may fax the completed form to 979.846.7607. Local chapters have additional fees. Below is a listing of chapters by region. To find out if there is a local chapter in your area, please review the chapter information on our website at abpa.org or call the National Office at 979.846.7606. **Membership in the Association constitutes paying National dues.**

Sustaining Member:

- Must be a company or organization
- Assign only one person as the member of ABPA
- A Sustaining Member must submit a letter that designates their Voting Representative.

Please Print Legibly or Type
